

Mech-Tronics CORPORATION

EPA Region 5 Records Ctr.

379276

April 14, 1983

Mr. Mike Nechvatal
Illinois E.P.A. Land Division
2200 Churchill Road
Springfield, IL 62706

Dear Mr. Nechvatal:

We would like to request an exemption from the permitting requirement for a special waste authorization number on certain manifests. At this time, Mech-Tronics Corporation generates Copper Chloride Waste and Chlorinated Solvents at the main plant at 1635 N. 25th Avenue in Melrose Park, Illinois (ILD 980681720, Generator 0311860025G). We then use our truck (SWH 0736,001) to haul the waste to our storage building at 157 N. 25th Avenue (ILD 054348172, Site 03118610). Once an adequate quantity has accumulated, we call in a licensed hauler to take the waste to the final disposal site.

We have been working with Lynn Crivello of the Illinois E.P.A. Maywood office, and she suggested I write to you requesting an exemption to eliminate the need for an authorization number on manifests from our main plant to our storage building.

If you have any questions, please feel free to contact me directly.
Thank you.

Sincerely,

Eugene R. DeMuro
Administrative Assistant
